## Objective

Prompt and vibe coder with a passion for software development, artificial intelligence, and blockchain technologies. Looking for opportunities to grow and contribute in dynamic environments.

## Education

Bachelor of Science in Computer Science

Savitribai Phule Pune University

Expected Graduation: may, 2026

## Technical Skills

Programming Languages: Java, Python, C, JavaScript, Solidity

Web Technologies: HTML, CSS, React (basic)

Tools & Platforms: Git, GitHub, VS Code

Concepts: OOP, Data Structures & Algorithms, Smart Contract Development

## Projects

Song Generation App

GitHub: <https://github.com/ajinkyaudmale/song-generation>

- Developed a TypeScript-based app that generates AI-based songs, integrating ML models with frontend components.

Math Python Library

GitHub: <https://github.com/ajinkyaudmale/math.python>

- Created a Python library for advanced mathematical operations with an emphasis on modularity and usability.

## **Achievements**

Codewars Rank: 3 kyu

Badge: <https://www.codewars.com/users/ajinkyaudmale/badges/small>

- Solved numerous algorithmic challenges, improving problem-solving and coding efficiency.

## **Extracurricular Activities**

- Member of the university coding club; participated in hackathons and coding sprints.
- Contributor to open-source projects focused on blockchain and AI.
